I have reviewed the EDD and it is fine. However, due to changes made to the report today, the EDD needs to be rerun as Cindy mentioned below. Robin, let me know when the EDD is done and I will make a quick review on Monday.

Subject: SVOC Narrative for WO# 1201015 - Please review

The narrative has been updated to address the QC issues we discussed this week (Part 2 of 3). Please review and confirm all information has been adequately captured.

For sample 1201015-26 the MDL values for the compounds detected need to be provided in the case file in case there are further questions about this sample.

At this time, I'm not including a statement about re-sampling.

The results in this work order need to be qualified based on our discussion. Eric is modifying the qualifiers.

Stevie or Sue would you please review those changes and sign off on the form I placed in the case file (final report review).

EDD will need to be re-generated. Sue is reviewing for all other issues but the new EDD will need to be reviewed to ensure these qualifiers are included.

Thank you everyone for these discussions and your input! Good discussions and great reviews!
